Career Objective

Aspiring Software Engineer with a strong foundation in programming and data analysis, aiming to specialize in Machine Learning from the second year onward. Interested in building intelligent systems and solving real-world problems using AI techniques.

Projects

Book Repository System

Python

- Developed a system to manage and organize books efficiently.
- Implemented CRUD operations and search functionality.

Data Analysis Project

Python

- Performed data analysis using NumPy, Pandas, and Polars.
- Visualized insights using Matplotlib.
- Applied data cleaning and preprocessing techniques.

ML Projects

Python / Machine Learning

- Implement supervised learning models such as Linear Regression and Logistic Regression.
- Work on classification and prediction problems using real datasets.
- Explore libraries like Scikit-learn and basic deep learning frameworks.

Technical Skills

Programming Languages: Python, C++, C, Java

Libraries: NumPy, Pandas, Polars, Matplotlib

Technologies: DBMS, SQL, Git, GitHub

Concepts: Data Structures, OOP, Problem Solving

AI/ML Learning

- Strengthening programming (Python) and data handling libraries.
- Learning Machine Learning algorithms and implementing projects.
- Building major AI-based projects and research-level understanding.

Certifications

- Python Libraries: NumPy, Pandas, Polars, Matplotlib
- (Planned) Machine Learning Certification

Additional Information

- Strong interest in Artificial Intelligence and Machine Learning.
- Continuously improving problem-solving and analytical skills.

Education

Lovely Professional University, Punjab

2025 – 2029

B.Tech in Computer Science (Specialization: Artificial Intelligence & Machine Learning)

CGPA: 9.33

D.A.V. Sr. Sec. School, Cheeka

YEAR: 2025

Class XII

GRADE: 90%

Mother's Pride Public School, Cheeka

YEAR: 2023

Class X

GRADE: 82%
